estimated linear own-price demand response $\hat{\beta}^{PL}$ (part of $P_t \to D_t$)
estimated cross-price demand response $\hat{\beta}^{P1}$ ($P_{t-1} \to D_t$)
estimated quadratic own-price demand response $\hat{\beta}^{PS}$ (part of $P_t \to D_t$)
true linear own-price demand response $\beta^{PL}$
true cross-price demand response $\beta^{P1}$
true quadratic own-price demand response $\beta^{PS}$
